-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 September 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

Applicant's election of Group I, claims 1-7 in the reply filed on September 8, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 8 and 9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 8, 2005.

Specification

The disclosure is objected to because of the following informalities:

Pages 4 and 5 of the specification contain numerous references to claims, which is improper because the ultimate patented claims may not correspond to the claims referred to in the specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1755

The examiner's reading of the specification suggests that crystallization occurs in the crystallization tank (3) referred to in Figure 5. Claim 1, step (2), substep (d) is written so as to indicate that crystallization occurs in substance-separating/recovering device. Thus, claim 1 is unclear as to where the crystallization occurs.

Similarly, claim 2, step (2), substep (b) is written so as to indicate that crystallization occurs in the substance-separating/recovering device (1A) rather than the crystallizer (3).

In claim 2, line 1, "the aforementioned ashes" lacks antecedent basis in the claim 2. It is noted that ashes are referred to in claim 1, however, claim 2 is an independent claim and should stand alone without reference to another claim.

The parenthetical phrases in claims 4 and 5 are indefinite because the claims are unclear as to whether the term "dioxins" is meant to be limited to the recited two compounds in the parenthetical phrase or may be more broadly construed.

In claims 4, 5, 6, and 7, "said substances to be magnetically ..." lacks antecedent basis.

Claim 3 is rejected for failing to correct the deficiencies of claim 1.

Allowable Subject Matter

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art fails to disclose or suggest the recited process of crystallizing a zeolite from incineration ash, which continuously removes a liquid portion of the reaction mixture from the crystallizer and subjects the liquid portion to a substance separating/recovering device.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
